HVR 2.0 - Dec 2008 - Winter SUCKS

STATE "sanctimony" 7"
6 new ripping tracks from this classic HC punk band. If you still think that the 1st 7" is the best stuff yet after hearing this you just dont like hardcore. This is in your face with some intense lyrics and songs that will stick in your head. The song FALSE ALARM is right up with NO ILLSIONS. This record is a ripper dont miss out.

POSITIVE NOISE "no hardcore" 7"
6 tracks of ripping hardcore. Think LARM/WHAT HAPPENS NEXT hardcore with some YOUTH OF TODAY and THE PIST tossed in. All the covers are hand screened and have really rad artwork from Scott Bentz.

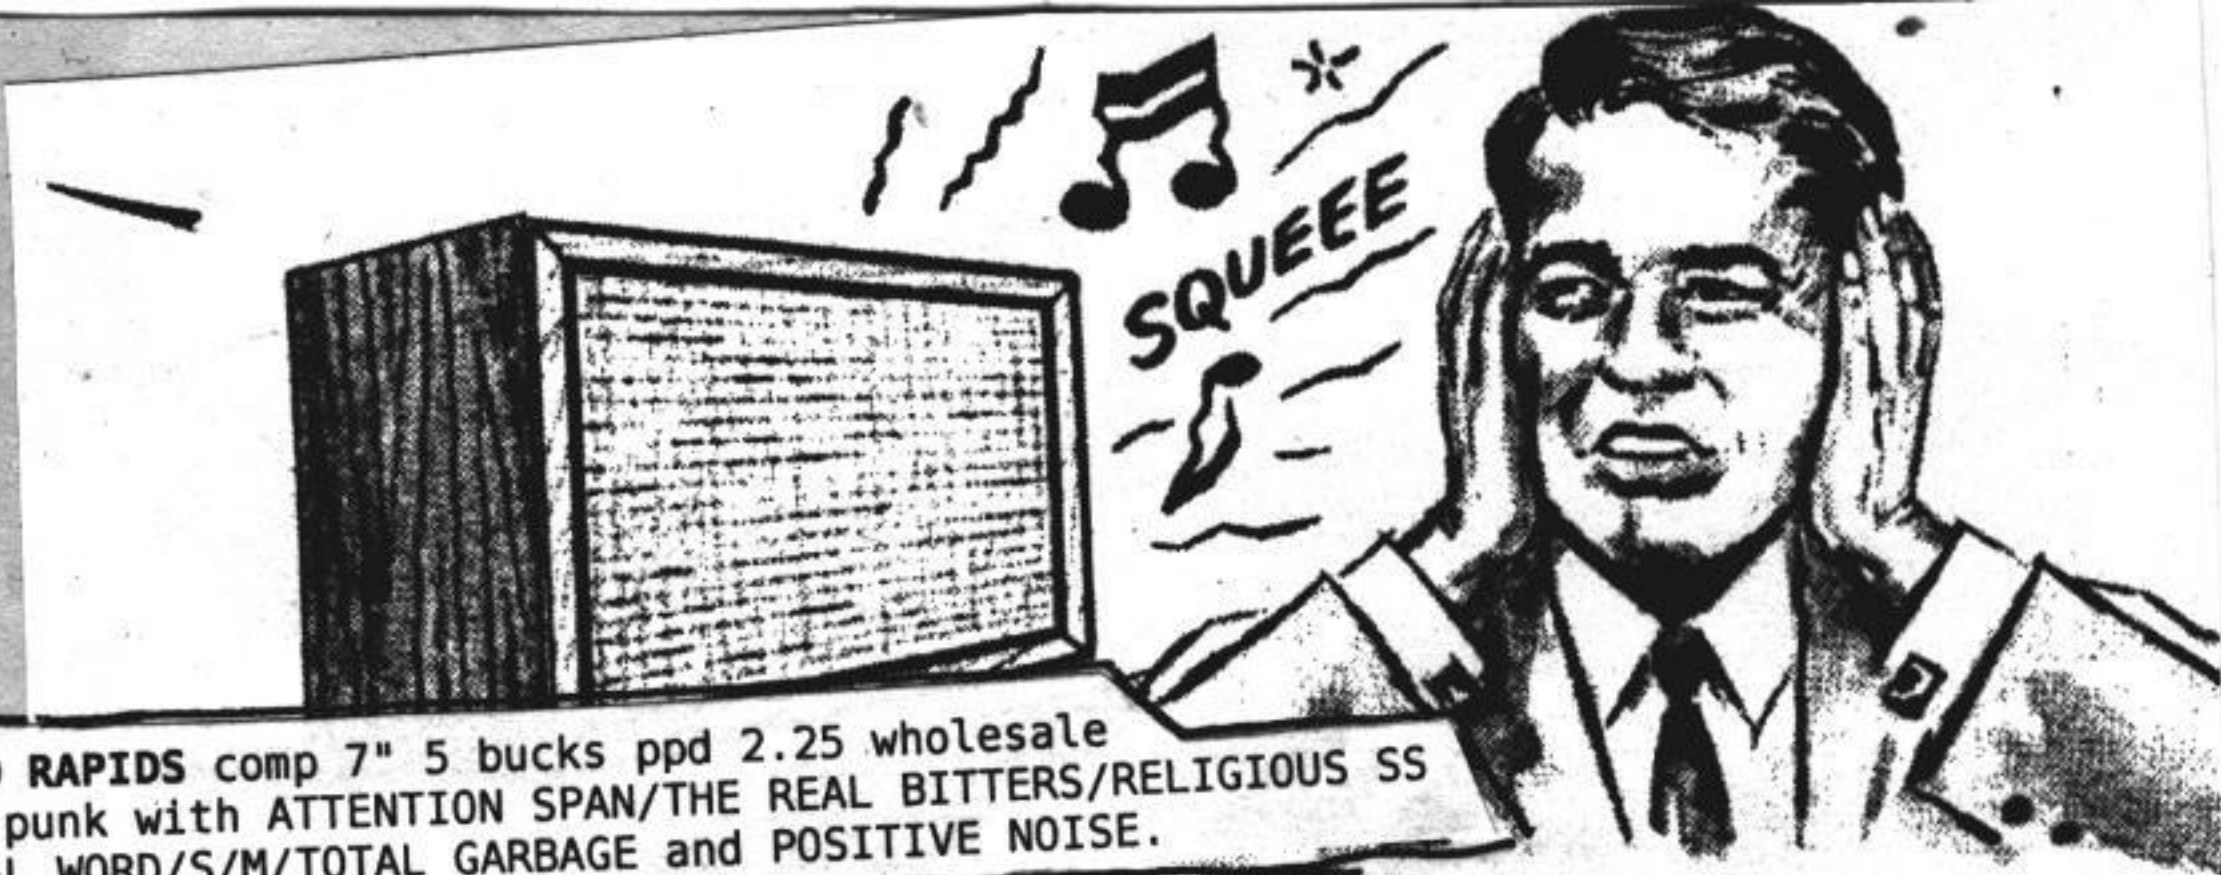

cool local VINYL!

FAS/MOM split 7"

Local rippers "Frog Ass Scum" along with "Monsters or Mayhem" have recently put out their first effort on ARBCO. The FAS side has classic hits like "Whiskey Dick" and "Pussy Whipped". On the MOM side my fave is "Unclear". That shit rocks hard.
